

DAY of ADVENTURE: HIKING THE PEAK OF MOUNT GALICICA

DAY of ADVENTURE: HIKING THE PEAK OF MOUNT GALICICA

Your itinerary:

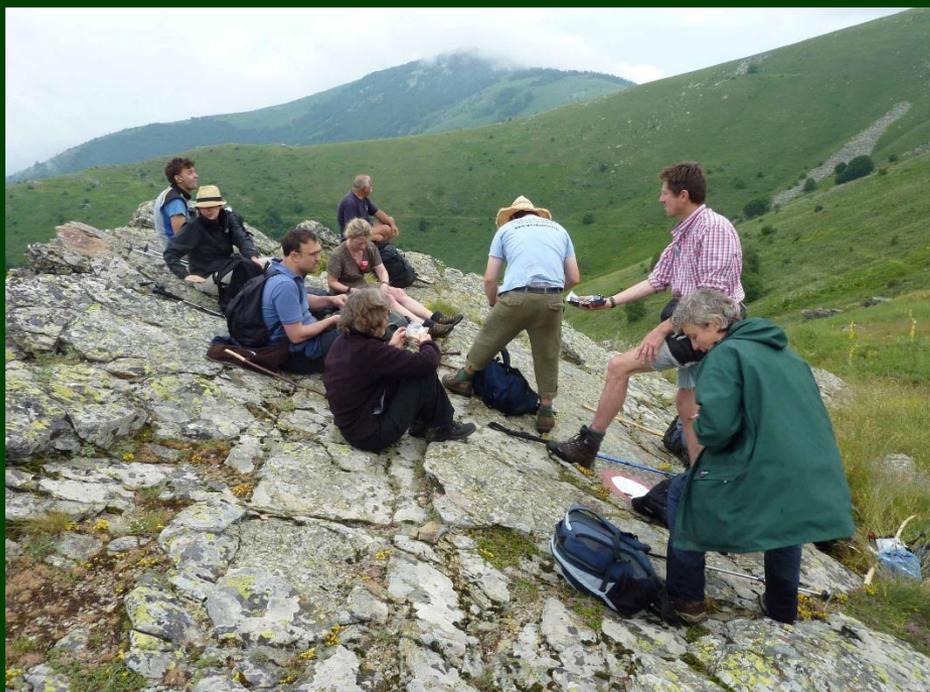

Mount Galicica stands like a huge whale rising between the two most beautiful lakes in Macedonia. Its highest peak Magaro (2254m) offers a breathtaking view of the ocean-blue waters of both Ohrid and Prespa lakes simultaneously. It is part of Galicica national park, one of the richest national parks in Europe with over 130 different types of trees and shrubs, many of which are relict...

On this hike you will be in the hands of professional English speaking hiking and tourist guides who will share with you their knowledge about the natural treasures of national park Galicica, the hiking possibilities all over the country, and the history and traditions of Galicica and Ohrid. Lunch will be up in the mountains, and it will be traditionally prepared, healthy and delicious!

Average temperature in Ohrid in May is 17-25°C (63 - 76°F). Please take warm clothes as on the peak and in the higher parts there may still be snow.

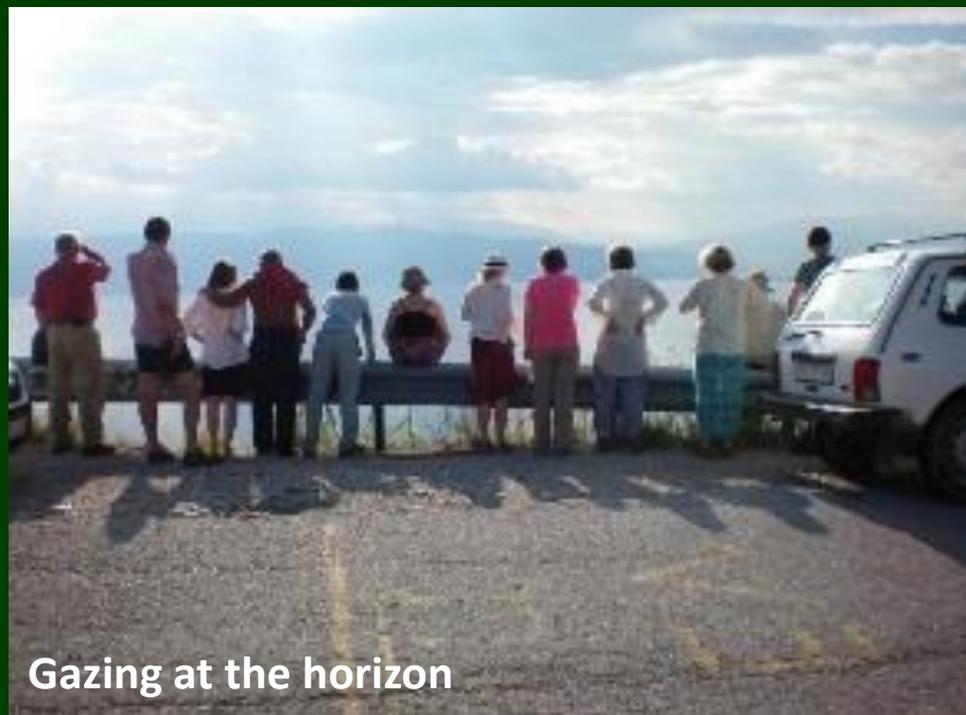

We won't hike the entire height to peak Magaro but we'll start with a scenic drive through the woods of national park Galicica to the height of 1568m where we'll start our hike up to the peak. The total hike to the peak takes some 2,5 hours. There are only few steeper parts, but average difficulty level of this track is 2/5.

Just before the peak we'll reach the spot with the best view over Ohrid and Prespa Lakes, where we'll have our picnic lunch and opportunity to take photos.

Descending will take 1,5 – 2 hours to the point with beautiful view over Ohrid Lake, Albania, and the surrounding mountains, where our transport to hotel will be waiting. Arrival back in your hotel at 16:00
